

Cornejo C&D Landfill

31st Street South & K-15 Highway (District III)

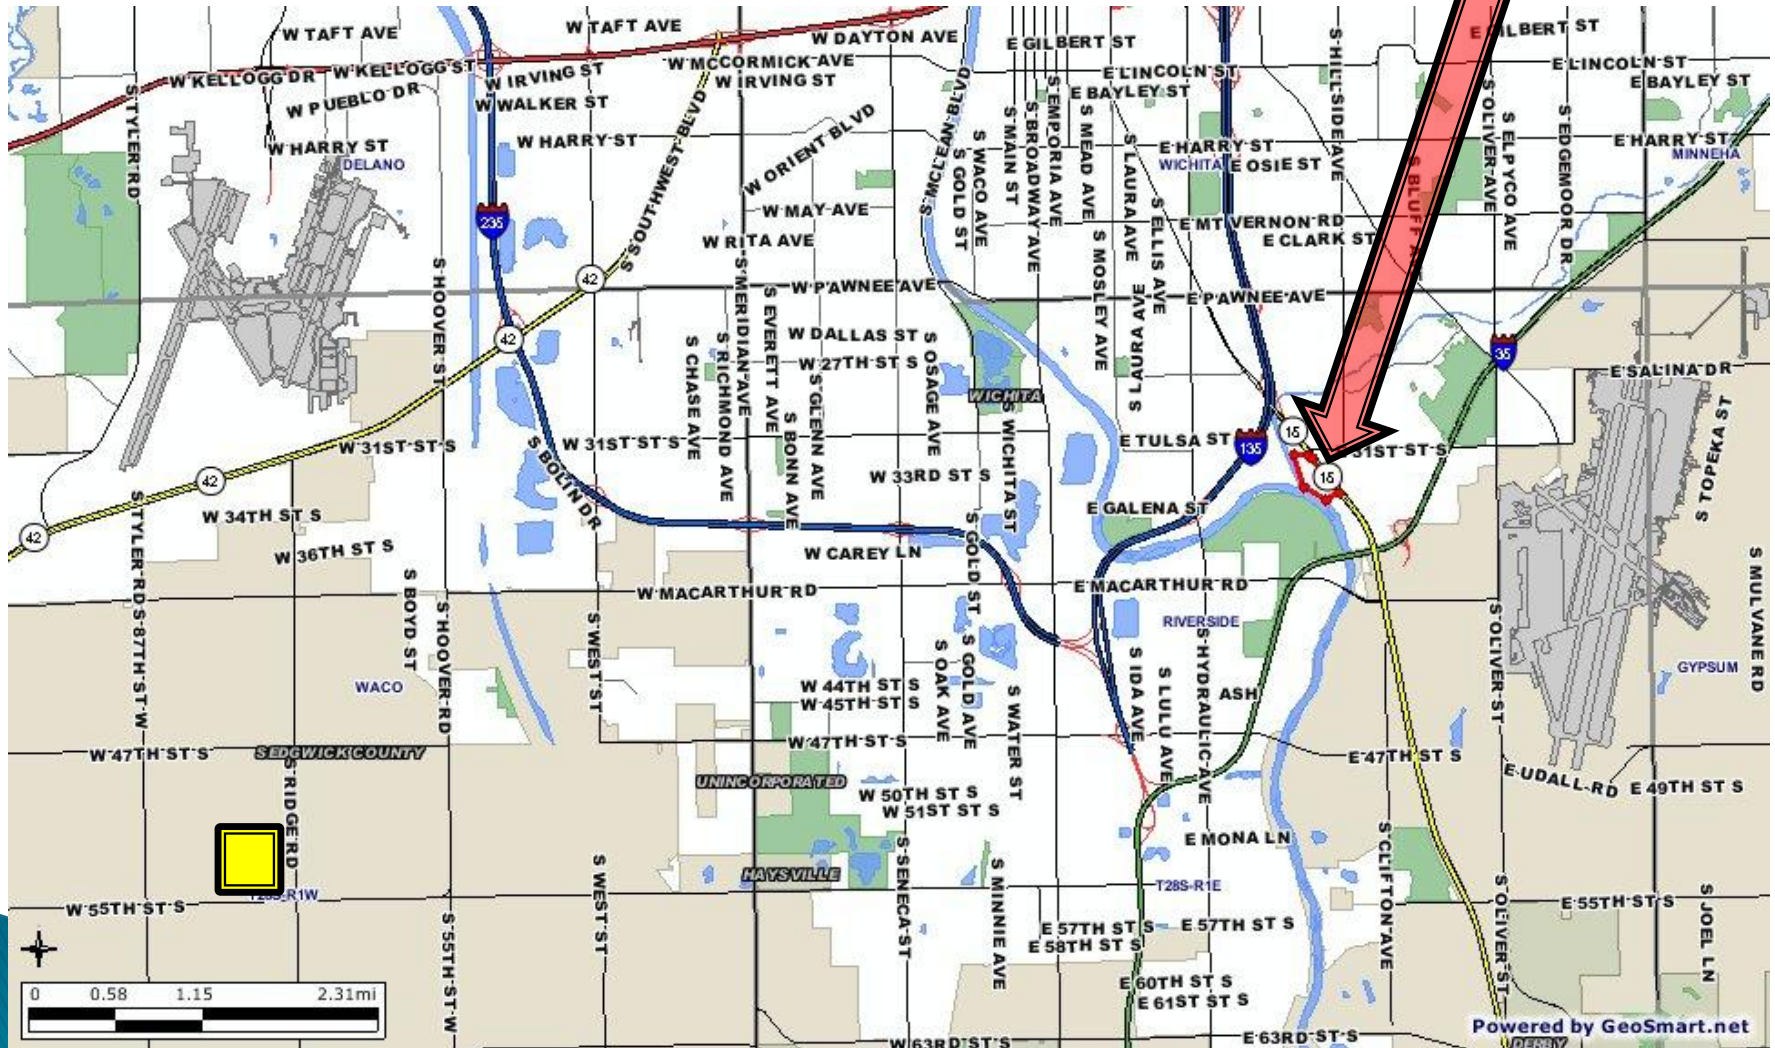

C&D Disposal Sites

 = Existing

 = Proposed

General Location Map

Site Development Concept

Issues to Consider:

- ▶ Original Plan – Turn an “attractive nuisance” into a site that can be developed as a river front park.
- ▶ Revised Plan – Use the site as a transfer station for C&D waste and yard waste composting.
- ▶ Permitting process:
 - Conditional Use modification
 - County Solid Waste Plan/Committee
 - KDHE permit application and hearing process

Where do we go from here?

- ▶ Lease Agreement – to allow this project to proceed the lease will need to be modified. Currently C&D landfill only and to become a park after December 31, 2010.
- ▶ Cornejo, Park, Planning, Legal, and Public Works are available to answer questions and present their perspectives as desired by the Council.
